

Find a radiologist or doctor near you

If you need a medical or chest x-ray examination for your visa application, you may need to use a doctor or radiologist from our approved list of panel physicians.

Approved panel physicians

Panel physicians are doctors and radiologists who are approved to complete chest x-rays and medical examinations for New Zealand visa applications.

If you are based in New Zealand and you only need a chest x-ray you must visit an INZ Panel Medical Clinic, where they will:

- create a case for you, and
- refer you to a Panel Radiology Clinic to get the chest x-ray.
